6 Read the article about three school students.

Anna

I'm not interested in everything we study at school – like our ICT lessons. But we learn three languages, and that's great. Now when we go to some countries on holiday, I can talk to people! It's important to learn things like that, because they can help us when we're older. And I'm happy at my school because we've got new science labs and a big new sports hall. My parents and I both think it's brilliant!

Maria

My parents were pupils at my school. It's very different now! We've got a big sports field. But we usually do sports lessons on Friday afternoon – when we're really tired! But I still love sport, and baseball's my favourite. I'm usually the worst in the team, but I don't mind. It's fun! I'm good at languages, but I'm not brilliant at Maths – but for me the Maths class is more interesting. The things we learn are really useful to me.

Sophie

Our French class is going to go to Paris next month. Two teachers are coming with us, and we're going to visit all the sights – and speak French! It's going to be amazing because everyone says Paris is a great place. But French isn't my favourite subject.

I'm better at Spanish and Geography. I love learning about different countries, and I want to be like my mum when I'm older – a Geography teacher!
